### SCIENTIFIC PURSUIT

During my PhD, my research focused on identifying, modelling, and understanding the complex relationship between psychosocial risk and protective factors that affect mental health during particularly difficult periods, as well as across the lifespan. This work was rooted in a resilience framework and had a strong theoretical and psychometric emphasis, centering around the questions: “what is adversity and how can we best assess it”, “what is transdiagnostic mental health and how can we best measure it” and “what are the most relevant psychosocial factors that affect mental health”. During my first postdoc, I again addressed the question of how we can better understand the complex interplay of psychosocial, mental health related factors, this time however within a dynamic and more ecologically valid set-up. During that time, I was also involved in more applied clinical research, such as in evaluating symptom-focused monitoring tools for the psychotherapeutic setting. Since the start of my second postdoc (“habilitation trajectory”), I am combining my scientific research with the clinical practice by working as a psychotherapist trainee in an outpatient clinic. By bringing together theoretical, psychometric, and clinically-focused research, I currently aim to examine a) which components – in addition to psychopathological symptoms – are particularly relevant for a comprehensive ‘mental health’ assessment, b) how we can best add personalized components to monitoring and outcome tools, to enable the most comprehensive and personally-relevant assessment possible, and c) how these components can be captured with monitoring and outcome tools (in the therapeutic setting).

## TEACHING

---

### Supervision

|                |                                                                                  |
|----------------|----------------------------------------------------------------------------------|
| 2024 – present | I supervise three PhD candidates: Nolik Schnittger, Marie Abraham, & Megan Bruns |
| 2021 – 2022    | I have co-supervised two PhD-projects                                            |
| 2018 – present | I supervise/ have supervised more than 20 Bachelor and Master theses             |

### Seminars

|                |                                                                                                                                                                                                       |
|----------------|-------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| 2024 – present | I teach the course “Research Internship: Psychotherapy Research” to psychology master students, for the Department of Clinical Psychology, Universität Osnabrück                                      |
| 2022           | I have taught the course “Clinical Psychodiagnostics” to psychology bachelor students, for the Department of Clinical Psychology, Philipps-Universität Marburg                                        |
| 2020 – 2021    | I have given seminars/ group-tutorials to Psychological and Behavioural Sciences (PBS-6) bachelor students for the Risk and Resilience Module, for the Department of Psychology, Cambridge University |

### Lecturing

|                |                                                                                                                                                                                                                                                                                                |
|----------------|------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| 2025 – present | I lecture “Routine Diagnostics: Process, Content & Visualization” for clinical psychology trainees in the psychotherapy training program, University of Osnabrück                                                                                                                              |
| 2020 – 2021    | I have lectured for the Risk and Resilience Module of PBS-6, for the Department of Psychology, University of Cambridge                                                                                                                                                                         |
| 2019           | I held a lecture titled “ <i>Psychological Network Models: Everything Is Connected ... or Not?</i> ” at the Cambridge Methods Day (26 <sup>th</sup> Nov.), MRC CBU, Cambridge, UK. <a href="#">link</a>                                                                                        |
| 2019           | I held a lecture, with Gabriela Lunansky, titled “ <i>An Introduction to Network Modelling</i> ” at the Presymposium Workshop for Methods in Resilience Research (24 <sup>th</sup> Sep.), 5 <sup>th</sup> International Symposium on Resilience Research, Mainz, Germany. <a href="#">link</a> |

### Summer Schools & Online Learning Platforms

|      |                                                                                                                                                                                                                                                                  |
|------|------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| 2018 | I was a member of the organizing committee for the 1st International Spring School on Resilience Research (May 21 – 25, Seeon Abbey, Germany).                                                                                                                   |
| 2017 | I am a co-author of/ contributor to Professor Anne-Laura van Harmelen’s resilience module for a mental health MOOC (Massive Open Online Course) for adolescents, led by the University of Groningen, counting more than 30,000 subscribers. <a href="#">link</a> |

## SYMPOSIA

---

|      |                                                                                                                                                                                                                                                                                                                                                                        |
|------|------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| 2025 | Quality & Quantity: Using mixed methods to aid measurement-supported psychotherapy. Host: Jessica Fritz. Speakers: Jessica Fritz, Melissa M. De Smet, Saskia Scholten, Femke L. Truijens. Discussant: Jan R. Boehnke (2025, 28th June), Society for Psychotherapy Research, Krakow, Poland.                                                                            |
| 2025 | Was ist im Rahmen der Psychotherapie eine sinnvolle Messung der psychischen Gesundheit? Antworten aus verschiedenen Therapieschulen und Forschungsrichtungen. Host: Jessica Fritz. Speakers: Johannes Zimmermann, Niels Braus, Johannes Ehrental, Jessica Fritz, Stefan Schmidt, & Carola Cropp (2025, 8th April), Deutscher Psychotherapie Kongress, Berlin, Germany. |
| 2024 | Time to feed back on feedback systems for psychotherapeutic routine care in Germany. Host: Jessica Fritz. Speakers: Benjamin Aas, Cord Benecke, Eva-Lotta                                                                                                                                                                                                              |

|      |                                                                                                                                                                                                                                                                                                                                                                                                                                       |
|------|---------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
|      | Brakemeier, Carola Cropp, Selin Demir, Steffen Eberhardt, Julia Glombiewski, Franziska Günther, Miriam Hehlmann, Tim Kaiser, Ludwig Küster, Wolfgang Lutz, Julian Rubel, Lea Schemer, Günter Schiepek, Stefan Schmidt, Saskia Scholten, Yannik Terhorst, Antonia Vehlen, & Matthias Volz (2024, 2nd December), Evidenzbasierte Personalisierte Psychotherapieforschung (ePePsy), Deutsche Gesellschaft für Psychologie, online event. |
| 2022 | Measuring stress in real life. Co-hosts: Inez Myin-Germeys, Erno Hermans, Raffael Kalisch, & Jessica Fritz, Rayyan Tutunji, & Anu Hiekkaranta (2022, 27th September), Johannes Gutenberg-University Mainz, Mainz, Germany.                                                                                                                                                                                                            |
| 2021 | So you want to do EMA? Developing a solid protocol for collecting experience sampling data. Co-hosts: Jessica Fritz, Marilyn L. Piccirillo, Laura Bringmann, & Lesley Norris. Speakers: Laura Bringmann, Olivia Kirtley, Julia Moeller, Michael C. Mullarkey, Andreas Neubauer, Noémi K. Schuurman, & Evelien Snippe (2021, 16th November & 2022, 11th January), online event. <a href="#">link recording</a>                         |
| 2016 | Examining Resilience in Longitudinal Cohort Studies Using Multi-Modal Data Analysis. Co-hosts: Raffael Kalisch, Anne-Laura van Harmelen, & Jessica Fritz (2016, 13th December), University of Cambridge, Cambridge, United Kingdom.                                                                                                                                                                                                   |

## PRESENTATIONS (\*invited)

---

|       |                                                                                                                                                                                                                              |
|-------|------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| 2026* | The past, present, and future of the experience sampling method, EDGE Lab presentation (13 <sup>th</sup> January), Oxford, UK, online event.                                                                                 |
| 2025  | A Meta Analysis on the Content of Contemporary Mental Health Measurement: Symptoms and Beyond, SPR Conference (28 <sup>th</sup> June), Krakow, Poland.                                                                       |
| 2025  | Eine Meta Analyse zum Inhalt von Fragebogenmessungen zur psychischen Gesundheit, DPK Kongress (8 <sup>th</sup> April), Berlin, Germany.                                                                                      |
| 2024* | Idiographic Patient-Reported Outcome Measures (I-PROMs): Going beyond symptom change, Person-Centered Treatment and Prevention Collaborative Speaker Series (08 <sup>th</sup> Aug.), online event.                           |
| 2024* | Meaningful mental health measurement: Exploring patient centered measures that go beyond symptoms, Kolar Lab Seminar (10 <sup>th</sup> July), online event.                                                                  |
| 2024  | Idiographic Patient Reported Outcome Measures (I PROMs): Going beyond symptom change, SPR Conference (28 <sup>th</sup> June), Ottawa, Canada (online presentation).                                                          |
| 2024  | Idiographische Patient Reported Outcome Measures (I PROMs): Ein innovativer Ansatz für die datengestützte und personenzentrierte Psychotherapie? DPK Kongress (12 <sup>th</sup> June), Berlin, Germany.                      |
| 2022  | Studying risk and protective factors with experience sampling methods. „Measuring stress in real life“ workshop (27 <sup>th</sup> Sep.), at the 8th International Symposium on Resilience Research, Mainz, Germany.          |
| 2021  | Mental Health Ecosystem: Exploring the dynamic landscape of psychosocial factors and mental health during the Covid-19 pandemic. Conference on Transdiagnostic Approaches (24 <sup>th</sup> Sep.), online event.             |
| 2021* | Welche psychosozialen Faktoren fördern die psychische Gesundheit? Eine Exkursion zum Thema Resilienzfaktoren. Mainzer Resilienz Gespräche, Public Lectureseries (28 <sup>th</sup> April), online event. <a href="#">link</a> |
| 2021* | Reconsidering Resilience: On the Perks and Pitfalls of Promoting Mental Health Resilience. Resilient Minds Journal Club (25 <sup>th</sup> March), online event.                                                              |
| 2020* | In Search for Resilience Factors. ChARM Seminar (20 <sup>th</sup> Feb.), Cambridge, UK. <a href="#">link</a>                                                                                                                 |
| 2019* | A Network Approach to Mental Health Resilience: Theory, Practice and Applications. Oxford OCEAN Lab Seminar (17 <sup>th</sup> Dec.), Oxford, UK. <a href="#">link</a>                                                        |

|       |                                                                                                                                                                                                                                                        |
|-------|--------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| 2019  | Unravelling the Complex Nature of Resilience Factors Following Childhood Adversity. 9 <sup>th</sup> World Congress of Behavioural and Cognitive Therapies (18 <sup>th</sup> July), Berlin, Germany.                                                    |
| 2019* | Unravelling the Complex Nature of Resilience Factors Following Childhood Adversity. Johannes Gutenberg University Medical Center (07 <sup>th</sup> February), Mainz, Germany.                                                                          |
| 2018  | Do Resilience Factors (RF) Fluctuate from Early to Late Adolescence? An Investigation of RF Interrelations and RF Mean Levels. Cambridge Psychiatry Symposium: Showcasing Graduate Research (21 <sup>st</sup> November), Cambridge, UK.                |
| 2018  | A Network Model of Resilience Factors for Adolescents With and Without Exposure to Childhood Adversity. Neuroscience in Psychiatry Network (NSPN) Scientific Meeting (09 <sup>th</sup> March), Cambridge, UK.                                          |
| 2017* | Using Network Models to Reveal Behavioural Resilience Structures. Cambridge Resilience Symposium (14 <sup>th</sup> December), Cambridge, UK.                                                                                                           |
| 2017  | Unravelling the Complexity of Resilience: A Network Model of Putative Resilience Factors for Adolescents With and Without Childhood Adversity. Cambridge Psychiatry Symposium: Showcasing Graduate Research (26 <sup>th</sup> October), Cambridge, UK. |
| 2017  | A Network Model of Putative Resilience Factors for Adolescents With and Without Childhood Adversity. 3 <sup>rd</sup> International Symposium on Resilience Research (28 <sup>th</sup> September), Mainz, Germany.                                      |
| 2017  | Mental Health Resilience to Exam Distress. Medical Education Research Group Meeting (02 <sup>nd</sup> August), Cambridge, UK.                                                                                                                          |
| 2017  | Unravelling the Complex Concept of Resilience. Neuroscience in Psychiatry Network (NSPN) Scientific Meeting (09 <sup>th</sup> March), Milton Keynes, UK.                                                                                               |

## TRAININGS

---

### Statistics & Psychological Methods

|      |                                                                                                                               |
|------|-------------------------------------------------------------------------------------------------------------------------------|
| 2021 | Modeling the Dynamics of Intensive Longitudinal Data Summer School, in person and online, Utrecht University, the Netherlands |
| 2021 | Human Change Processes, 13 <sup>th</sup> Summer School, held online (originally: Seeon Abbey, Germany)                        |
| 2021 | ESM Data Analysis Course (Mixed-Effects Models), held online (originally: Maastricht University, the Netherlands)             |
| 2019 | Longitudinal Structural Equation Modelling Course, Summer Stats Camp, Albuquerque, USA                                        |
| 2019 | An Introduction to Machine Learning, University of Cambridge, UK                                                              |
| 2018 | Multiple Imputation Course, Fall Stats Camp, London, UK                                                                       |
| 2018 | Bayesian Statistics Summer School, Utrecht University, the Netherlands                                                        |
| 2017 | Network Analysis Winter School, University of Amsterdam, the Netherlands                                                      |

2015            Matlab Introduction for Beginners, University of Cambridge, UK  
 2015            Introduction to Statistics with R, University of Cambridge, UK  
 2015            R Programming, John Hopkins University, Coursera Online Course

### **Scientific Management & Leadership**

2018            Leadership Workshop, University of Cambridge, UK  
 2017            Managing Research Effectively and Reproducibly, University of Cambridge, UK  
 2016            How to Conduct Clinical Research Studies, University of Cambridge, UK  
 2015            Good Clinical Practice, University of Cambridge, UK

### **Clinical & (Neuro-)Cognitive Assessment**

2016            MRI Safety, University of Cambridge, MRC Cognition and Brain Sciences Unit, UK  
 2015            MRI Safety, University of Cambridge, Wolfson Brain Imaging Centre, UK  
 2015            Structured Clinical Interview for the DSM (SCID), University of Cambridge, UK  
 2013            Cambridge Neuropsychological Test Automated Battery (CANTAB), Center for Human Drug Research, Leiden, the Netherlands

---

## **SKILLS**

---

### **Psychometric and Statistical Expertise**

- data reduction methods (e.g. exploratory/ confirmatory factor models), classification methods (e.g. factor mixture models, latent class analysis), methods to analyse longitudinal patterns in data (e.g. structural equation models, path models with and without moderation and mediation effects, latent change models), methods to analyse complex systems/ the interactions of a multitude of variables (e.g. network analysis), prediction methods (e.g. machine learning models), methods to analyse time-series (e.g. mixed-effects models, dynamic network models such as multi-level vector-autoregression models), methods to treat and/ or compensate for missing data (e.g. multiple imputation models), methods to compare models (e.g. permutation tests, models with invariance constraints).

### **Software Expertise**

- Data analysis: R/ Rstudio (advanced); Mplus (intermediate); Matlab, SPSS, EQS (basic)
- Web-based data assessment: REDCap (advanced); E-Prime (intermediate); Qualtrics (basic)

### **Language Expertise**

- German: native, English: fluent TOEFL=115/120, Dutch: fluent NT2=92%

---

## **AFFILIATIONS & COMMITTEE POSITIONS**

---

2025 – present    „Praxis schafft Wissen, Wissen schafft Praxis“ Fort- & Weiterbildungsverbund für PsychotherapeutInnen in Niedersachsen, [link](#)  
 2024 – present    SPR: Society for Psychotherapyresearch  
 2022 – present    Leadership Committee Person-Centered Treatment and Prevention Collaborative  
 2017 – present    INTRESA: International Resilience Alliance  
 2018 – 2019       MRC Doctoral Training Student Committee  
 2017 – 2018       Treasurer for the Cambridge University Refugee Aid and Action Society

---

## INTERNSHIP AND ASSISTANT POSITIONS

---

### Research Assistant Position

- 2013 – 2015      Center for Human Drug Research (CHDR), Leiden, The Netherlands
- conduction of pain experiments, EEG and cognitive assessments, as well as data management

### Clinical Internships

- Summer 2014    Neuropediatric ward, 'Klinikum Kassel' Hospital, Kassel, Germany
- shadowing and conduction of cognitive, socio-emotional and behavioural diagnostic tests
- Summer 2013    Psychiatric ward, 'Reinhard-Nieter' Hospital, Wilhelmshaven, Germany
- shadowing of clinical assessments, clinical interviews and group therapy
-
